E) BIBLIOMETRY ACCORDING TO WEB OF SCIENCE:

Web Of Science analysis showing exponential growth of publications and even greater raise in citations. When comparing these data to 2021 (Concur as Associate Professor) we can detect

- + 43% citations
- +30% increase H index

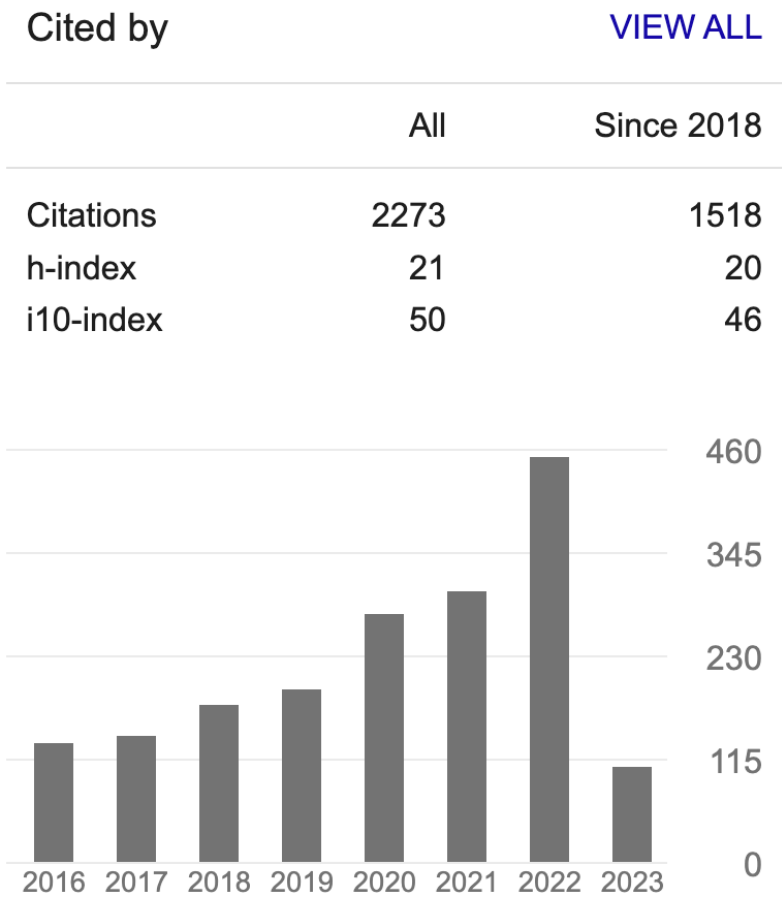

Web of Science Tree Map Chart visually showing publication distributions among different research fields

Web of Science Tree Map Chart visually showing different affiliations and collaborations

F) BIBLIOMETRY ACCORDING TO GOOGLE SCHOLAR

Google Scholar analysis similarly showing exponential growth of publications and steep increase in citations. The i10-index of 50 (n of publications with at least 10 citations) gives a prediction on future exponential growth of h-index.
